BRIEF SUMMARY

Motivated student completing B.E. in Computer Enginnering, dedicated to improving skills through hands-on learning and development work. Experienced in Web Development and Machine Learning. Well-organized and collaborative team player with strong communication, fast learning and adaptable to different technologies.

EDUCATION

• **Modern Education Society's College of Engineering ,Pune**　　*July 2020 - June 2024*
Bachelor of Engineering - Computer Engineering　　SGPA: 8.30

• **Yashavantrao Chavan Institute Of Science,Satara**　　*July 2019 -June 2020*
HSC　　Percentage: 62.00

• **Annasaheb Kalyani Vidyalaya,Satara**　　*July 2017 - June 2018*
SSC　　Percentage: 90.20

TECHNICAL SKILLS

Languages: JAVA, HTML&CSS, JAVASCRIPT, NODE JS, PUG, PHP
Developer Tools: VS code, GitHub, Wordpress, npm, pip, GitLab, Jupyter, Pycharm
Frameworks: Express.js, Bootstrap, Pandas, Scikit, Seaborn, Matplotlib
Databases: MySQL, MongoDB
Soft Skills: Time Management, Flexibility, Teamwork, Communication
Platform: Windows, Ubantu, Linux

PROJECTS EXPERIENCE

• **All in One Restaurant in Wordpress :**

I have created an all-in-one restaurant website using WordPress, leveraging the Astra theme for its flexibility and customization options. The site features an intuitive design, easy navigation, and integrates functionalities such as online reservations, menu displays, and customer reviews. My work involved both the design and development phases, ensuring a seamless and user-friendly experience for both restaurant staff and patrons.

• **Travelling Tour :**

In my experience working with PHP for a traveling tour project, making it easy for people to book trips smoothly. I adeptly managed databases using MySQL, ensuring efficient data handling. I ensured user data privacy by implementing robust security measures, including hashing functions for password protection, in order to safeguard sensitive information.

• **TextTool Website Creator and Host in React.js :**

As a React.js Developer, I created and hosted "TextTool," an innovative web application designed for text manipulation and operations. The application allows users to easily convert text to uppercase, lowercase, and perform various other text transformations. Leveraging React.js for a dynamic and responsive user interface, I ensured a seamless user experience. My role encompassed both the development and deployment phases, demonstrating my proficiency in front-end technologies and web hosting.

- **Other Projects :**

  – Digital Clock Using Javascript
  – Spam Detection System Using Machine Learning
  – Login/Signup Page and a Landing Page of Interncrowd Company
  – SuperMarket Sales Management System using PHP and MySQL
  – Event Management System (Using HTML, CSS,Bootstrap & JavaScirpt)
  – Login/Registration Page in Node.js and MongoDB
  – Usability hub Website

PROFESSINAL EXPERIENCE

- **IEEE Bombay**   *Dec 2022 - Feb 2023*

  Full Stack Developer (Intern)

  –   During my internship at IEEE Bombay, I was part of a team that created a clip path maker website. We all worked together to make it easy to use. This experience taught me a lot about making things on the web and how to work with a team. Being an intern here was a really fun and valuable experience that improved my skills as a web developer.

- **Intercrowd Company**   *Feb 2023 - Mar 2023*

  Frontend Developer (Intern)

  –   As an intern at Intercrowd, I had the opportunity to create a clone website for the company. I utilized HTML, CSS, and JavaScript to replicate the design and functionality of an existing website. Completing the project has given me the confidence to create websites that are not only user-friendly but that also help the company.

WORKSHOP

Web Wizard Workshop :
    Three Days Workshop on HTML& CSS and Bootstrap by MESCOE, Pune

AIML :
    Five Days Workshop on DataScience and AIML by MESCOE, Pune
